Kurzbeschreibung

The first book in the *New York Times* bestselling *Expanse* series.

NOW A MAJOR TV SERIES FROM NETFLIX Humanity has colonised the solar system - Mars, the Moon, the Asteroid Belt and beyond - but the stars are still out of our reach. Jim Holden is an officer on an ice miner making runs from the rings of Saturn to the mining stations of the Belt. When he and his crew discover a derelict ship called the *Scopuli*, they suddenly find themselves in possession of a deadly secret. A secret that someone is willing to kill for, and on an unimaginable scale. War is coming to the system, unless Jim can find out who abandoned the ship and why. Detective Miller is looking for a girl. One girl in a system of billions, but her parents have money - and money talks. When the trail leads him to the *Scopuli* and Holden, they both realise this girl may hold the key to everything. Holden and Miller must thread the needle between the Earth government, the Outer Planet revolutionaries and secret corporations, and the odds are against them. But out in the Belt, the rules are different, and one small ship can change the fate of the universe. **Pressestimmen**

It's been too long since we've had a really kickass space opera. LEVIATHAN WAKES is interplanetary adventure the way it ought to be written, the kind of SF that made me fall in love with the genre way back when, seasoned with a dollop of horror and a dash of noir. Jimmy Corey writes with the energy of a brash newcomer and the polish of a seasoned pro. So where's the second book? (*George R. R. Martin*)

"Corey... has created a refreshingly blue-collar tale, with well-drawn characters and a compelling narrative sweep. Roll on Book Two." FINANCIAL TIMES **Pressestimmen**
