Howard Phillips Lovecraft (1890 – 1937) — known as H.P. Lovecraft — was an American author who achieved posthumous fame through his influential works of horror fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine. By age 34, he was a regular contributor to newly founded *Weird Tales* magazine. In 1926 he produced some of his most celebrated tales including "The Call of Cthulhu". Never able to support himself from earnings as author and editor, he subsisted in progressively straitened circumstances in his last years; an inheritance was completely spent by the time he died at the age of 46.
